

Electronic PEST REPELLER

Ultrasonic

No Poison
No Chemicals
No Traps
Environment friendly

**Chases small rodents and insects
from the home**

✓ Mice ✓ Fleas ✓ Ticks ✓ Spiders ✓ Crawling insects

The WEITECH Pest Repel products produce complex "sounds" of a very high frequency (ultrasonic) and of a very high intensity. These sounds are inaudible to humans but can be heard by rodents and most insects.

The permanent modulation of the frequencies and the intensity of emission of the ultrasonic sounds affects their nervous system, disrupts their social and communicative habits and effects their ability to detect their natural predators. This obliges them to leave the protected area.

Ultrasonics act just like audible sounds : they rebound off hard surfaces and are absorbed by porous or soft surfaces. They do not pass through walls and are most effective indoors.

Protects up to 135 m²
Adaptor 220V included, or battery 9V operated (Battery life: 3 days)
Emits ultrasounds from 20.000 Hz to 45.000 Hz
Visible results after 72 hours
LED

Ref. WK 0220

- Gross weight gr.: 384
- Net weight: gr.: 302
- Dim. blister cm: h: 24 x l: 19 x W: 6,3
- Master carton: 12 blister packs
- EAN: 5414099232207
